ABOUT US

People who know finance and the shop floor

Fibersoft is a Gujranwala-based ERP and IT company with an ACCA-qualified team. We design, implement and support Fibersoft ERP for importers, manufacturers, traders and exporters across Pakistan.

Most growing companies outgrow basic accounting software: stock lives in spreadsheets, production and costing are guessed, and FBR invoices are typed into a portal twice. Fibersoft ERP runs the whole company on one database, so every item, customer, supplier, employee and account is entered once and shared by every module.

We focus on five industries, so every workflow, report and example comes from businesses like yours.

MISSION

Give Pakistani businesses a first-class ERP at a price local companies can afford, with the people to make it work.

VISION

One live system where owners see today's sales, stock and cash on their phone, and FBR is done on save.

Why Fibersoft ERP

All-in-one
37 connected modules on one set of numbers: finance, supply chain, production, HR and CRM.

FBR digital invoicing
Every sales invoice reported to FBR on save, with FBR number and QR code printed.

Fibersoft AI
Ask questions and get answers from your own data in plain English or Urdu.

Multi-company
Many companies and branches, one login, consolidated reports in one click.

Any device
Approvals and reports from phone, tablet or computer, with 3 mobile apps.

Secure
Role-based rights down to each field, encryption and a full audit trail.

ACCA-qualified team
Finance professionals who understand your books and month-end.

Fast deployment
Cloud technology, or a dedicated server set up for you.

9/6 support
Customer care 9 hours a day, 6 days a week.

THE PLATFORM

37 modules, one database

Quotations, orders, deliveries, invoices and payments flow between departments in the same moment. Start with what you need and add modules as you grow.

API
REST API and webhooks for anything else

INDUSTRY SOLUTIONS

Five industries, done deeply

01 Apparel & Garments

Cut-to-pack, knitwear and hosiery makers: orders, fabric, bundles, piece rates and export shipments in one system.

- Size & colour matrix stock
- Bundle barcodes & piece-rate wages
- Style costing from fabric, trims & CM
- Export invoice & packing list

Trusted by: K Industries · Wooltex Knitting Mills · M/S Khwaja Hosiery

02 Mobile Phones & Laptops

Handset assemblers, mobile importers and laptop distributors: every unit tracked by IMEI or serial number, from kit to customer.

- CKD/SKD kit BOMs
- IMEI 1 & IMEI 2 pairing, duplicates blocked
- Dealer schemes & price protection
- Warranty claims by serial

Trusted by: FA Computer Pvt Ltd · SBS Pvt Ltd

03 Import Export & Electronics

Importers, exporters and electronics traders: LCs, shipments, landed cost, currencies and serial-wise stock.

- LC & shipment tracking
- Landed cost per unit
- Exchange gain & loss on realisation
- Serial-wise stock & warranty

Trusted by: Open for new clients

04 Packaging & Pharma

Two industries on one platform: PVC film packaging makers and pharmaceutical manufacturers.

- PVC film: roll-wise stock in kg & metres, gauge checks, job costing
- Pharma: formula batches, QC release, FIFO dispatch
- Batch traceability & recalls
- Wastage, trim & regrind

Trusted by: Master Plastic Pack · KM Pharmaceutical Pvt Ltd

05 Pvt Ltd Manufacturing

Private limited manufacturers: production, costing, multi-company accounts, payroll and audit-ready books.

- Production & MRP
- Actual cost per order or batch
- Multi-company consolidated books
- Internal audit trail

Trusted by: All Fibersoft ERP clients, incl. Asia Rice Mills

less material waste
Master Plastic Pack

35%
more on-time deliveries
Master Plastic Pack

95%
on-time order fulfilment
K Industries

50%
less payroll processing time
K Industries

FBR digital invoicing

Each sales invoice goes to FBR's digital invoicing system when you save it. HS code, buyer NTN/CNIC, registration status, tax per line and totals are validated first; the FBR invoice number and QR code print on your own invoice format, and your sales tax records stay ready for the return.

1. **Review** items, HS codes and tax rates
2. **Configure** tax templates and print formats
3. **Test** sample invoices checked before going live
4. **Go live** every invoice reported on save

OUR TEAM

The people behind Fibersoft

MN **Mehar Naveed** Product Head ACCA	UA **Usama Ali** Product Manager	AM **Ayaz Mehmood** Manager Operations	UF **Umar Farooq** Finance Executive ACCA
